

Northland Regional Council
Hokianga-Kaikohe Constituency
Electing 1 Regional Councillor

Justin BLAIKIE

Independent

My principal place of residence is in the Hokianga-Kaikohe Constituency area.

Kia ora koutou katoa,
I believe Northland's future will be strongly influenced by two factors that are the responsibility of the Northland Regional Council.

These are: Having environmental policies that protect and enhance the regions natural resources, particularly water quality, soil quality and the coastal/marine environment; & maintaining and enhancing a stable and diverse economic platform, that can provide for the wellbeing of Northland's culturally diverse population.

Sustainable management of our Natural resources is the key strategy in being able to maintain a vibrant economy, and also provide Northlanders with an environment they can cherish and enjoy into the future.

I have the necessary drive, energy and most importantly scientific knowledge to provide Hokianga and Kaikohe ratepayers with effective and informed leadership on the Council.

A vote for Blaikie is a vote for action, in terms of these important issues. A vote for Blaikie is a vote for real solutions.

Northland Regional Council
Hokianga-Kaikohe Constituency
Electing 1 Regional Councillor

Joe CARR

Independent

My principal place of residence is in the Hokianga-Kaikohe Constituency area.

Kia ora. Please re-elect me. I work hard and get results Northland wide. I chair NRC's output focussed, science-based, Environmental Management Committee and four community

river liaison committees - all very active in sustainable catchment management, providing free Farm Water Quality Improvement Plans and riparian fencing assistance. Experience: an RMA hearings commissioner, ex FNDC councillor and community board member. Joint NRC Government initiatives I champion include: Kaikohe area water supply investigation for community, agricultural, horticultural and industrial use, that evaluates social licence and environmental effects; Hokianga/Mid North's two-year trial bus service connecting Omapere, Rawene, and all Mid North East Coast towns with Intercity, Mana and NDHB services; Ngawha processing industries as in the Taitokerau Northland Economic Action Plan. My kaupapa is helping people make sustainable use of natural resources.

My Pet hate - pointless talkfests. Tatou Tatou. Let's do it together. Contact: 0276015448; joe.kate.carr@gmail.com
