

Northland Regional Council  
Te Hiku Constituency  
Electing 1 Regional Councillor

---

---

**Mike FINLAYSON**

Independent

My principal place of residence is in the Te Hiku Constituency area.

Working with our Community

I am here to listen to your opinions and ideas to ensure decisions are made based on community wisdom and experience. We need to work

together to ensure: Rates increases are kept to a bare minimum, if any; More jobs are created, especially protecting our environment, by complimenting council funds with outside sources; Development is environmentally sustainable; Northland remains GE Free; Council decisions are made locally, not in Wellington.

This needs strong, experienced and innovative leadership. I have over 30 years business and governance experience and have volunteered thousands of hours towards conservation in Te Hiku. My governance experience includes Te Hiku and Northland Conservation Boards, Far North Environment Centre, Kaitaia Community House and Herekino Landcare.

I will work hard making sure your voice is being heard and you're getting the best value for your rates. Make your vote count!

Northland Regional Council  
Te Hiku Constituency  
Electing 1 Regional Councillor

---

**Monty KNIGHT**

My principal place of residence is in the Te Hiku Constituency area.

Born in Te Hiku, educated and worked here all my life.

I am a strong advocate for environmentally sound development. I was elected to the seat in Feb 2015 in the by-election following the death of Councillor Dennis Bowman.

I am experienced in governance, having served a term on Far North District Council, and have held many Regional and National Directorships, Board and Chairman roles.

During the last 18 months I have worked diligently representing the interests of Northland and especially those of my constituency.

Chairing the Doubtless Bay Catchment Group and working with Councillor Carr on the Awanui River flood protection scheme has been rewarding, but there is much more to do.

I have worked closely with Councillors, Dover Samuels and Joe Carr, who understand the challenges facing the Far North.

I am keen to continue this work.
